PENSACOLA, FLORIDA, FRIDAY MORNING, AUGUST 4, 1905.

PRICE 5 CENT

REGARD THE SITUATION AS HOPEFUL

Although Day's Record in New Orleans Shows Increase in Number of Deaths.

TEXAS IS ALARMED

SHOTGUN QUARANTINE BEING PUT INTO EFFECT BY NORTH-WESTERN COUNTIES--TERROR SPREADING AND SERIOUS RESULTS APPREHENDED.

By Associated Press.

New Orleans, Aug. 3.—Following is a summary of the yellow fever situation up to 6 o'clock tonight:
Total cases to date 432.
Deaths to-day, 5; total deaths to date, 84.
New sub-foci, 11; total sub-foci, 65.

SITUATION IS STILL REGARDED AS HOPEFUL.

New Orleans, Aug. 3.—While the day's record shows an increase in the number of new cases and deaths and a considerable spread of the infection, still the situation is regarded as hopeful by the health authorities. They have not concealed the expectation that, for some days to come, there would be a daily average of twenty to twenty-five new cases and a proportionate number of deaths owing to the extent of the infected territory.

SHOTGUN QUARANTINES IN NORTHEAST TEXAS.

Houston, Tex., Aug. 3.—Since the report of a suspicious case of fever at Rockport, a sort of panic has seized some of the towns and counties in northeast Texas and shotgun quarantines are being put into effect. Grege county has given orders that trains shall not stop in the county either from the north or south, and that all persons must be approached with care. Locks and windows tightly closed, while all car doors on freight trains must be sealed, whether the cars are empty or loaded. The terror seems to be spreading and railroad officials fear serious results.

Charleston Quarantines.

Charleston, Aug. 3.—The board of health this afternoon declared a strict quarantine against New Orleans and selected points. Inspectors will be placed on all railroads at Junction and will take the most stringent precautions will be taken on the water front.

SULTAN FEARS DISMEMBERMENT

By Associated Press.

Paris, Aug. 3.—Information from the official quarters shows that the Sultan of Morocco, who first proposed the international conference, now has a discussion among the powers as to the dismemberment of his empire. He recently called an assembly of the chiefs and formally decided that outside interference in Moroccan affairs was not necessary. The Sultan since then has shown opposition to the conference.

MILLION MARK PASSED AT THE PORTLAND SHOW.

By Associated Press.

Portland, Ore., Aug. 3.—The Lewis and Clark officials announce that with the attendance yesterday of 27,426, the million mark has been passed, the total attendance from June 1 to date, including passes, being 1,013,531.

Japanese Vessel Was Run Ashore to Prevent Loss

By Associated Press.

San Francisco, Aug. 3.—Admiral Kuroki resolved here by the mail that the Russian ship, the *Siberia*, which arrived from Japan, that the former Togo Kisen Kaisha's ship *Nippon* was so badly damaged by the shells of the Russian ship *Albatross* during the battle of the Sea of Japan that it was found necessary to run the vessel ashore to save her from a total loss. She was one of the first of Togo's scout vessels and was the first to discover Admiral Kuroki's fleet on the morning of

NO MOSQUITOES NO YELLOW FEVER

Marine Hospital Service Says Insect Alone is Responsible for Its Spread.

IN THREATENED COMMUNITIES PATIENTS WITH ANY KIND OF FEVER SHOULD BE PLACED UNDER A SCREEN AS SOON AS POSSIBLE.

By Associated Press.

Washington, Aug. 3.—The marine hospital service has issued a circular on the prevention of yellow fever. Directions are given for the suppression of the mosquito as the only means of preventing its spread. "No mosquitoes, no yellow fever," is the motto at the head of the circular. The document says:

"Infection of yellow fever is carried by mosquitoes and by no other means can the infection spread. Persons take disease by being bitten by mosquitoes that have previously bitten a yellow fever patient. Mosquitoes to become infected must bite a yellow fever patient during the first three days of his attack. These first three days are, therefore, the most important for preventing the access of mosquitoes to the fever patient."

"It is often difficult to decide, during the first three days, whether a patient has yellow fever, hence the necessity, in threatened communities, of placing mosquito bar immediately around every patient with fever of any kind for at least three days. Necessity of draining and screening are dwelt upon with much emphasis."

SANITARY WORK PROGRESSING RAPIDLY

Although the Rains of the Past Few Days Have Retarded Work to Some Extent.

The work of placing Pensacola in a thorough sanitary condition has been progressing rapidly since the Board of Health and the Board of Works took the matter in hand, and to-day the city is in the best sanitary condition it has been in for a number of years.

The work has been retarded to some extent, however, during the past few days, owing to the heavy rains, but so far it has been very satisfactory to the city officials. Cutting down weeds, draining cesspools and placing oil in places where stagnant water is found, is going steadily ahead, and is being done in all sections of the city, especially in the western portion, where there were a large number of vacant lots, many of which were covered with a heavy growth of weeds, and where mosquitoes were bred in large numbers.

The sanitary inspectors have done some exceptionally good work, and the force of Superintendent Gingles, which is about double its former number, has also been hard at work with the result that numerous drains have been opened and tons of weeds cut and hauled away.

MADE APPLICATION FOR ADMISSION TO ASYLUM.

By Associated Press.

Columbus, Ohio, Aug. 3.—Charles Morgan, an elector, made the unusual request of Probate Judge Black to-day to be confined in the Columbus state hospital. Morgan stated that his system was so undermined by intoxicants that he feared that he would lose his mind. Judge Black granted the request, and he will be treated for his ailment.

Japanese Vessel Was Run Ashore to Prevent Loss

By Associated Press.

San Francisco, Aug. 3.—Admiral Kuroki resolved here by the mail that the Russian ship, the *Siberia*, which arrived from Japan, that the former Togo Kisen Kaisha's ship *Nippon* was so badly damaged by the shells of the Russian ship *Albatross* during the battle of the Sea of Japan that it was found necessary to run the vessel ashore to save her from a total loss. She was one of the first of Togo's scout vessels and was the first to discover Admiral Kuroki's fleet on the morning of

BOARD OF WORKS IN SPECIAL SESSION

Heard Complaint Regarding Street Sweeping and Removal of Garbage.

The Board of Public Works held a special meeting yesterday afternoon, when the members remained in session for about two hours, discussing many matters for the public good. Those present were Chairman Turner, Mayor Bliss and Mr. Zellus.

The meeting was called for the purpose of taking some action regarding the complaints made about the sweeping of streets and the removal of the sweepings. For some days complaints have been coming in to the officials, in which it was claimed that the work was not being done properly. This matter was discussed at length and the board finally decided to deduct a certain amount for every complaint that is made, and which is found to be true.

The board also decided to give notice that all weeds and garbage must be removed within twelve hours from any residence in the city.

STATEMENT OF GOV. VARDAMAN

By Associated Press.

Cincinnati, Aug. 3.—The Times-Star has the following dispatch from Governor Vardaman of Mississippi concerning the clash between his state and Louisiana:

"Jackson, Miss., Aug. 3.—The much talked of conflict between the states of Mississippi and Louisiana, as far as I know, is without justification in fact, if the quarantine guards of Mississippi have been guilty of indiscretion it has not been reported to me by the officer in charge of the guards, and I cannot believe that they have done anything wrong. I have instructed the guards to remain on Mississippi soil and to be careful in the enforcement of the quarantine regulations promulgated by the Mississippi state board of health, and not to do anything improper. The intimation of an armed conflict between the states of Mississippi and Louisiana, whose friendship has been so cordial and of such long standing, is absolutely ridiculous to me. I shall not permit the quarantine guards or any other Mississippians to violate the rights of Louisiana or her people, and I am sure the honorable governor of Louisiana reciprocates that sentiment."

"JAMES K. VARDAMAN, Governor."

MR. FAIRBANKS MADE A SPEECH

Sault Ste Marie, Mich., Aug. 3.—Commemorative exercises in the government park here, adjoining the ship canal, made up the second day's program of the semi-centennial celebration of the opening of the St. Mary's ship canal, which connects Lake Superior with the lower lakes. The exercises took the form of a program of addresses, the feature of which was an address by Vice-President C. W. Fairbanks. The park was handsomely decorated and the addresses were made from a stand erected at an advantageous point. Archdeacon Lorri, of Sault Ste Marie, opened the exercises with an invocation. Hon. Peter White of Marquette, president of the commission which had the celebration in charge, and the most widely known man in the upper peninsula, spoke on "Development of the Lake Superior Region."

Other addresses were made by Congressman Burton of Ohio, chairman of the rivers and harbors committee of the house of representatives; Hon. Rodolph Lemieux, solicitor general of the Dominion of Canada; Governor Fred M. Warner of Michigan, United States Senator Burrows, and Hon. William Livingston, president of the Lake Carriers' association.

At the close of the exercises, a large number of the guests were entertained at a luncheon at the hotel. The day's program was a success in every respect.

WORTH TRYING

Perhaps a Want Ad. in The Journal could get you a raise of salary.

Don't you think it is worth trying?

NO DANGER OF A COLLISION ON BOUNDARY

Considerable Attention Attracted By Radical Action of Governor Blanchard.

HOPE EXPRESSED THAT VARDAMAN'S INSTRUCTIONS WILL BE RIGIDLY OBSERVED AND VIOLENT MEASURES THEREFOR UNNECESSARY.

By Associated Press.

New Orleans, Aug. 3.—Though the announcement that Governor Blanchard had actually ordered the naval brigade under arms and dispatched the mosquito fleet of the oyster commission to the Louisiana-Mississippi boundary attracted considerable attention, there is absolutely no apprehension that any serious collision will occur. The hope is generally expressed that Governor Vardaman's instructions to the guards not to trespass upon Louisiana territory will be rigidly observed and that there will be no necessity on the part of Commander Bostwick's fleet to use violent measures.

The board of health of Louisiana, which is also in session at New Orleans, has issued a circular to its officials, in which it is stated that the quarantine guards of Louisiana will be careful not to violate the rights of Mississippi or her people, and that they will be careful in the enforcement of the quarantine regulations promulgated by the Louisiana state board of health, and not to do anything improper.

BROKERAGE FIRM CLOSES DOORS

By Associated Press.

New York, Aug. 3.—J. H. Mansfield & Co., a brokerage firm, said to have been without exchange connections, which firm occupied a handsome suite in a lower Broadway office building, has suspended, and anxious creditors besieged the place yesterday, seeking some explanation. No member of the firm could be found. Their only consolation was a placard on the door reading:

"Business temporarily suspended; will resume in a few days." According to the firm's letterheads the concern was incorporated with a capital of \$100,000. It had been in business only six months, and catered largely to women, forty of whom gathered about the closed rooms and stared at the notice of suspension.

YELLOW FEVER ON THE ISTHMUS

By Associated Press.

Washington, Aug. 3.—Governor Magoon's report for July on the yellow fever situation on the isthmus shows improvement as compared with the preceding month. During July there were 29 cases of fever. Since the present outbreak on the isthmus, which occurred during the latter part of April, there have been twenty-six deaths, and of this number fifteen were employees.

The average force during the quarter has been in excess of ten thousand.

BLOODY RECORD OF NEGRO DESPERADO

Murdered Two Persons and Wounded Four Others Before Being Killed By Posse.

ALL THE DEEDS WERE COMMITTED WITHIN THE SPACE OF TWENTY-FOUR HOURS--ONE OF THE VICTIMS WAS A WOMAN, WHO IS BADLY INJURED.

By Associated Press.

Little Rock, Ark., Aug. 3.—A special to the Gazette from Lewisville, Ark., says: "After killing two persons, seriously and probably fatally shooting two other persons, one a woman, and less seriously shooting two others, like Kinney, a desperate negro, was killed in the river bottom near Doelia, six miles south of here at noon to-day, after a hot fight with a posse of citizens which had surrounded him."

"His bloody record for twenty-four hours is: August 2 (morning) killed a negro at Stamps; August 2, (afternoon) killed E. R. Ferguson, claim agent for the Louisiana and Arkansas Railroad; August 3, (morning) seriously shot Mrs. Stewart, of Greensburg, Texas, also Mr. Stewart her husband; August 3 (noon) shot Alvin Barham through the neck and shot a finger from one of C. F. Nash's hands."

The young man, who has served for some years as steward on board of the monitor *Amphitrite*, seemed to improve some during yesterday, though it is hardly possible that he will survive. The bullet entered the roof of the mouth and took an upward course. The fact that he was having hemorrhages prevented an examination to locate the bullet.

Dancer stated yesterday that he had purchased the revolver and was sitting in a chair in his room examining and loading it when it was accidentally discharged, the bullet striking him in the mouth. The revolver was one of the improved make, and he says it was discharged as he was closing it, after having placed a cartridge in the chamber.

BOYCOTT IS DECLARED OFF

NEGROES HELD MEETING AND DECIDED TO ONCE MORE RIDE ON CARS.

The boycott of the negroes of Pensacola against the street railway company has been declared off. This was the result of the meeting held Wednesday night at Allen Chapel, A. M. E. Zion Church, presided over by the president of the former meetings, C. F. Call.

As the law passed by the Florida legislature was declared unconstitutional, the negroes decided that they would once more patronize the cars, or as many of them as desired to do so. A resolution along these lines was adopted, but prior to the same speeches were made by Thos. Bellinger, G. W. Lewis, G. B. Williams, J. T. Mason, C. T. Dorroh, C. F. Call and I. L. Purcell.

LABOR SCARCE IN AUSTRO-HUNGARY

By Associated Press.

New York, Aug. 3.—Baron Hengel-muller, the Austria-Hungarian ambassador who arrived yesterday from Europe, denies that Austria-Hungary is encouraging emigration to the United States.

"There is a scarcity of unskilled labor in Austria-Hungary," said the ambassador, "and farmers are having difficulty in getting enough help to harvest the crop. There was an abundance of such labor, but emigration has changed the situation entirely. Wages for unskilled labor have advanced so that they are now as high, practically, as in America, and there is no object for laborers to leave their native land."

FRANK JUDEVINE NOT EXPECTED TO SURVIVE.

Frank C. Judevine, a young man well known in the city, is not expected to survive through to-day. He has been ill for several months, and this morning his condition was such that all hope for his recovery was abandoned.

COMING VISIT OF BRITISH FLEET TO THE BALTIC

Expected to Mark the Beginning of More Cordial Relations.

KNOWN LONG AGO

Suggestions that Germany Objected to It Unfounded.

COMMENT ON PENDING CRUISE LEADS TO BELIEF THAT IT WILL ASSIST IN STRENGTHENING THE ANGLO-GERMAN RELATIONS.

By Associated Press.

London, Aug. 3.—The forthcoming visit of a British fleet to the Baltic Sea appears more than likely to mark the beginning of more cordial relations between Germany and Great Britain, instead of, as has been suggested in some quarters, adding to the friction now existing. The proposed visit was known to the German foreign office months ago, and suggestions that objections to it were raised by Germany are unfounded.

Ernest George Pretzman, secretary to the admiralty, to-day, in reply to questions, said definitely that no protests regarding the visit of the fleet had been received.

Friendly comment on the pending cruise from German Baltic ports creates the belief that it will help King Edward's desire for good relations between Germany and Great Britain, and the announcement of Emperor William's support of the candidacy of Prince Charles of Denmark for the Norwegian throne is accepted as an indication that the German ruler proposes to work in the same direction. The report is revived that Emperor William will meet King Edward during the latter's forthcoming trip to Marienbad.

L. & N. SHOULD LOOK AFTER WATER BARRELS.

The matter of preventing the breeding of mosquitoes and remedying conditions wherever found, has been a source of considerable discussion since the prevalence of fever in New Orleans. In this connection one of the most prominent gentlemen of the city yesterday stated that the barrels of water placed on the tops of all buildings of the Louisville and Nashville hatched more mosquitoes than all other places in the city combined. On nearly all of the buildings, especially the wharves, barrels of water are kept standing for use in case of fire, which are excellent breeding places for the mosquito. The matter has been called to the attention of the local officials of the Louisville and Nashville and it is expected that conditions will be remedied, if such has not already been done.

NEW RAILROAD FOR GULF COAST

By Associated Press.

Chicago, Aug. 3.—Organization of the Mississippi Valley and Gulf railroad was begun here yesterday. W. I. Allen was elected president. Theodore Rockefeller, treasurer. According to Allen, the company is incorporated in Iowa, and the Western Mississippi Valley states to the gulf, with a capitalization of \$50,000. It is planned, he said, to start the road from some point in Iowa on the Mississippi, and engineers already are engaged in surveying for a night of way. Mr. Allen was formerly assistant general manager of the Rock Island and is said to have built a portion of the Pere Marquette road.

Equitable Directors Have All the Lawyers Engaged

By Associated Press.

New York, Aug. 3.—Senator Tully and Assemblyman Rogers, of the legislative subcommittee appointed to secure counsel for the forthcoming insurance investigation, spent the greater part of the day down town visiting various law offices. Their search for counsel is becoming increasingly difficult inasmuch as practically all of the forty-nine Equitable directors, against whom suit has been brought, have already engaged lawyers to defend them in this action.
